

Transportation Service

Politeknik Brunei does not currently provide any home-to-institution transportation services. However, transportation by means of a shuttle bus facility is available for students of School of Science and Engineering at the current rate of BND90* per month. The shuttle bus will transfer you straight from Politeknik Brunei, Ong Sum Ping Campus in Bandar Seri Begawan, or any designated pick up points set by the company, to School of Science and Engineering at Lumus Campus.

Please do take note that the shuttle-bus service is independently run by company selected and monitored by Politeknik Brunei.

For those requiring the transportation service may directly contact the bus operator company at the address provided below and payment can be made directly at their premise.
