

Diploma in Health Science (Nursing)

School of Health Sciences, Politeknik Brunei

Overview of Programme

The overall aim of the Diploma in Health Science (Nursing) programme is to prepare first-level nurses who are able to provide effective evidence-based patient-centered care.

Aims of the Programme

Equip students with knowledge, skills and attitudes to make significant contributions to health and professional nursing practice.

Prepare students with the ability to perform the required clinical skills competently and in full knowledge of the current evidence.

Career and Progression

On successful completion of the course, candidates are eligible to apply for registration with the Brunei Nursing Board.

The successful completion of the programme renders a candidate to be eligible for application for enrollment on the Bachelor's programmes of studies
