

PB/EST/Q/2025-2026/05
 REPLACEMENT OF THE CONFERENCE ROOM AUDIO SYSTEM FOR LEVEL 12
 CONFERENCE ROOM P1, INCLUDING SUPPLY, INSTALLATION,
 COMMISSIONING AND TESTING

ITEM ITEM	KETERANGAN DESCRIPTION	KUANTITI (QUANTITY)	UNIT
	<u>Notes:</u> i) A site visit inspection is required for all interested contractors prior to submitting their quotation. This is crucial to understand the site conditions. Contractors must contact Estate Management Division at 2234630 ext 286 to schedule their visit. iii) Politeknik Brunei reserves the right to award this tender per item and is not bound to award the tender as a complete package. - <u>Supply of labour, tools, materials, supervision and all necessary equipment for the proper execution of the works as follow:</u> 1 <u>Decommissioning and removal of existing system</u> To decommission, dismantle and remove all components of the existing conference room audio system for Level 12 Conference Room P1, including but not limited to microphones, speakers, amplifiers, processors, control panels, associated cabling, and to make good on all areas affected by the works. <u>Note:</u> <i>All removed equipment / components shall be neatly packed and handed over to SO upon completion of the works.</i> 2 <u>Installation of new relocatable wired conference room audio system</u> To supply, deliver, install, commission and test a complete new wired conference room audio system for Level 12 Conference Room P1, with an installation methodology specifically designed for future relocation, including all applicable equipment (microphones, speakers, mixer, amplifiers, control interface, etc), consumables, all necessary cabling, connections, training to our personnel, any other associated works for a fully functional, ready-to-use new system and to make good on all areas affected by the works. The system installation must be planned for a clean and efficient de-installation process, designed for future relocation. <u>Note:</u> i) Contractors are required to provide separately a detailed outline of the specifications of the new system, including detailed itemized list of all proposed equipment with the corresponding cost for each item. ii) Future Relocatability: Contractors should demonstrate in their proposal how the proposed new system and installation method allow it to be effectively de-installed and subsequently re-installed in a new location.		

	iii) Training: On-site local training for methods of operating the newly installed audio system and procedures for its future de-installation and relocation shall be provided to our personnel. iv) Warranty: All equipment and installation workmanship must be covered by a comprehensive on-site warranty. The workmanship warranty is specific to the initial installation at the Level 12 Conference Room P1 location. The manufacturer's warranty on individual hardware components remains subject to its own terms and conditions. Please specify the details of the warranty below: Warranty period: _____ Type of warranty: _____		
3	<u>Installation of new relocatable wireless conference room audio system</u> To supply, deliver, install, commission and test a complete new conference room audio system for Level 12 Conference Room P1, suitable for future relocation. This system shall prioritize the use of wireless technology and portable components to ensure maximum ease of relocation, including all applicable equipment (wireless tabletop microphones, speakers, compact mixer, amplifiers, control interface, etc.) consumables, all necessary cabling, connections, training to our personnel, any other associated works for a fully functional, ready-to-use new system and to make good on all areas affected by the works. <u>Note:</u> <i>i) Contractors are required to provide separately a detailed outline of the specifications of the new system, including detailed itemised list of all proposed equipment with the corresponding cost for each item.</i> <i>ii) Future relocatability: The proposed system and its installation method must be designed with ease of relocation and re-installation in mind for another suitable conference room environment. Contractors should demonstrate in their proposal how the proposed new system (or key components thereof) can be effectively de-installed and subsequently re-installed in a new location.</i> <i>iii) Training: On-site local training for methods of operating the newly installed audio system and procedures for its future de-installation and re-installation/relocation shall be provided to our personnel.</i> <i>iv) Warranty: All equipment and installation workmanship must be covered by a comprehensive on-site warranty. Please specify the details of the warranty below:</i> Warranty period: _____ Type of warranty: _____
